Data relating to organizations do not qualify as personal data in all cases. However, where any data—such as the name of a natural person or an email address linked to an individual—allows a natural person to be identified directly or indirectly, the provisions of this Privacy Notice relating to personal data shall apply.

4. DATA MADE PUBLIC ON THE WEBSITE

One of the fundamental purposes of the Global Peace Earth Alliance connection system is to enable affiliated organizations, communities and initiatives to become visible and accessible to one another.

Accordingly, following acceptance of the affiliation, the following organizational data provided by the applicant may be publicly displayed on the Global Peace Earth Alliance website:

- name of the organization or community;
- country;
- address or registered office;
- brief introduction and description of activities;
- website address.

The name of the contact person or representative and the email address provided shall be made publicly available only if the data subject has given separate and explicit consent.

If such consent is not given, these data shall be processed by the data controller solely for internal communication purposes.

Please note that data published on the website may become accessible to anyone on the internet and may also be accessed by third parties.

5. LEGAL BASIS FOR DATA PROCESSING

The processing of voluntarily provided personal data of the contact person or representative, as well as the publication of such personal data on the website, is based on the voluntary consent of the data subject pursuant to Article 6(1)(a) of Regulation (EU) 2016/679 of the European Parliament and of the Council (GDPR).

Consent is voluntary and may be withdrawn by the data subject at any time.

The withdrawal of consent shall not affect the lawfulness of processing based on consent before its withdrawal.

Providing the name of the contact person, as well as consenting to the public disclosure of the contact person's name and email address, is not a condition for an organization to affiliate with the Global Peace Earth Alliance.

6. INFORMATIONAL EMAILS

If the data subject gives separate consent, the Civil Value Preservation Association may send information to the email address provided regarding Global Peace Earth Alliance events, initiatives, opportunities for affiliation and important news affecting the international network.

The legal basis for this processing is the voluntary consent of the data subject.

Consent given for the sending of such information may be withdrawn at any time.

Refusing to receive informational emails or subsequently withdrawing consent shall not affect affiliation with the Global Peace Earth Alliance.

9. DURATION OF DATA PROCESSING

As a general rule, personal data necessary for affiliation and communication shall be processed for as long as the organization's or community's affiliation with the Global Peace Earth Alliance continues, or until consent to the processing is withdrawn.

If an affiliated organization requests termination of its affiliation, personal data publicly displayed on the website shall be removed without undue delay, and consent-based personal data processed in the affiliation register and for communication purposes shall be deleted, unless their continued retention is justified by a legal obligation or by the establishment, exercise or defence of legal claims.

Personal data processed solely for the purpose of sending electronic information shall be processed until the relevant consent is withdrawn.

The data controller shall periodically review whether continued processing of the stored personal data remains necessary for achieving the purpose of the processing.

10. VOLUNTARY NATURE OF DATA PROVISION

Affiliation with the Global Peace Earth Alliance is voluntary.

Without the provision of organizational data necessary to ensure affiliation and presentation on the website, the organization may not be presented, or may only be presented to a limited extent.

Providing the name of a natural-person contact person or representative is not mandatory.

Refusing consent to the public disclosure of the contact person's name or email address shall not result in any disadvantage and shall not prevent the organization from affiliating.

11. AUTOMATED DECISION-MAKING AND PROFILING
